Delivered by Carrier at fifty cent per Month.

Grand ball tonight.

Geo. S. Milikin left Thursday.

F. N. Laffan is in Salt Lake on business.

The stage now leaves at 8 a. m. instead of at 7.

The Nevada-Utah are retimbering the old Burk tunnel preparatory to the extraction of ore from the upper levels.

Superintendent Ed Freudenthal will put on an additional force of men at the Day mine tomorrow, remantling the shaft with steam hoist.

The real difference in all lines of business is energy. We move and induce business ideas to move with us. Pioche Realty & Brokerage Co.

At the general election Nov. 5, 1872 Pioche cast 1506 votes for member of Congress while the total vote of the county amounted to 1936; 430 votes being cast outside of Pioche.

The telegraph wires are down between here and Modena and it is impossible to ascertain by this route whether or not work on the Pioche branch road has begun.

There are many opportunities for profitable investment in this community if you only knew it. The Pioche Realty & Brokerage Co., will tell you something about this if you only ask them. Its their business.

The Republican central committee meets at Caliente tomorrow to elect delegates to the state convention which assembles at Tonopah Aug. 2, and to fix the time for primary and county conventions. Committee-men at Pioche are: F. W. Dickie, H. F. Freudenthal, J. D. Cambell and Jesse Peasley.

Sheriff Jake Johnson has done a splendid piece of work on our streets recently with the Jap force held here under conviction for rioting which is appreciated to the full extent by our citizens. The good work still continues, though Jake left Thursday for DeLamar to clean out that place.

Marriage licenses were issued out of the County-Clerks office Thursday to Mr. Earnest Lane and Miss Neda Austin, both of Fay. The wedding will take place Sunday evening at the bride's home where a circle of friends have been invited to witness the ceremony and enjoy the festivities of the occasion. Mr. Lane is an exemplary young mining man of that place and is present Superintendent of the Horseshoe Mine there, while Miss Austin is the accomplished daughter of one of the owners of the property. The RECORD joins a host of friends in their good wishes for their welfare and happiness.

Joe Foster has made a new and important strike on the lime hill just east of town. It is about 500 feet from the town site and shows two feet of ore running 36 oz silver and 12 per cent lead. This ledge has been looked for for years, considerable work in the way of trenches having been done below it on account of the rich float found there. Mr. Foster has two distinct fissure veins crossing bedded limestone which induces the opinion that at quartzite, which is not very deep, large bodies of high grade ore may be encountered. The fact is the east end has not been prospected and it is the opinion of some here that it will prove the best end of the camp. There are many practically logical reasons for this belief.

Heavy Rains.

The heaviest rain and hailstorm known here for years fell in the vicinity of Jackrabbit, crossing to the Wilson Creek range east, last Saturday afternoon. Mrs. Page an old time resident of the valley says she never witnessed anything approaching it; while Jesse Peasley avows he drove through a foot of hail on his way home with wood. Water rose so high it filled the well belonging to Mrs. Page and spread through the valley at a width unknown before. The thunder summer showers still continues in every direction and it is not improbable that another big washout will occur on the San Pedro down Meadow Valley Wash before they are over.

RAILROAD TO PIOCHE.

Owners of properties and others interested there are greatly gratified at the receipt of a message from President John Weir of the Nevada-Utah Copper company that Senator Clark will commence construction at once of the railroad from Caliente to Pioche.

President Weir was in Liver-pool when he received the message from Senator Clark, en route to Paris.

The assurances of the road are regarded now as positive, and have been given by Senator Clark since hearing reports of his representatives sent out to investigate the resources of the district for large enough tonnage in a reasonable time to warrant construction.

The grade of the roadbed is practically completed and ties will soon begin to arrive. If men can be secured, the track-laying will be concluded within forty days from its commencement.—Telegram

A COMPLAINER.

It is remarkable the persistency with which some persons adhere to the pessimistic side of every idea approaching enterprise and advancement. For instance the efforts now being made by a few to tacitly advance the material welfare of the community is looked upon by some from a pessimistic standpoint. To them it is the same idea that nothing good can emanate from Nazareth. Nothing in their home town looks good to them, their neighbors and friends even have some serious defects and they are generally not altogether pleased with themselves. According to their way of reasoning there will never be a mine developed in the community, for no one knows how to do it except themselves and they want. The community will never advance because they are an impenetrable impediment and the railroad cannot come to town without running over them. All of these things are possible but they will not permit it. The sun may rise tomorrow but not having done so there must necessarily be some doubt about it.

Will Carman and Riding Bros returned from a few days visit to Fay Thursday.

Try one of Casey's cocktails at J. A. Clark's. They are out of sight.

A neat sign bearing the inscription of Lincoln County Assay Office confronts one as they go up Meadow Valley street, and signifies that Geo Arbogast & Co are ready for business. The office has been fitted up elaborately and convenient for chemical and metallurgical tests and those who patronize it will know they are right.

Arthur Murphy came down from Salt Lake the early part of last week to again take charge at the Ida May mine at Bristol, Superintendent Free resigning. Mr. Murphy has been Superintendent of this mine off and on for several years and it is said has always made it pay while under his management. Mr. Free is now engaged in the mining and brokerage business in Pioche.

LOST—A wide band ring with W. S. C. on the top, two chipped diamonds on the side and from family, Apr. 1, 83. Apr. 1, 04. on inside. The finder leave at this office and get reward.

A FEW SUGGESTIONS.

As the time approaches for the different political parties to contemplate their policies, is out of place to suggest a few issues which may come up for public discussion by either side. In times past when Lincoln county was dead, figuratively, when its population was meager, when no mines were worked, no railroads building, no progress along any lines made and no criminality, and when county officials could stay at home and till their farms there was little to discuss from a political standpoint. The people were content to let things rock along, for Lincoln county was not able to pay much for little; all that was required of county officials was to meet monthly, audit accounts and draw their salaries, and their wage for doing this was fixed in accordance with their work.

Is that the case today? Not in any sense, but some people imagine this state of affairs should continue so far as salaries are concerned, and that good men, as in the past, can be secured for cheap wages.

Within the last few years there have been in excess of 300 miles of railroad constructed in the county and construction still going on, new and prosperous towns have sprung up everywhere, both old and new mining camps are being worked, taxable property has increased enormously, the population has grown till one scarcely knows his neighbor any more, the financial condition of the county is better than ever in its history, criminality in consequence is raging rampant and the burden falls upon faithful but poorly paid officials. The jail is crowded beyond its capacity for comfort and unless something is done in the way of relief along this line night and day guards with all the attendant dangers of such a policy will have to be provided. Things are different now from what it has been and the party which hasn't brains enough to see things about right will have a hard time this fall.

THEY SAY

That a young man here contemplates the candacy for the fool factory and that the race may not be confined to one.

That Wilkes is arranging for a house, and that the next 24 of July will not find his name among the list of bachelors.

In fact Jim says that five gallons of pure fresh water is quite refreshing along about midnight. It don't pay to investigate. But he did.

That Charlie not only talks in his sleep but Jim is considering seriously of interring an injunction against certain annoying encroachments.

That the tail end of their night shirts showed the handiwork of female construction and that the calico heiroglifcs and tucks and frills had to be undone by a milder set.

That a dog came down Lacour street one day this week like a whirlwind with something tied to his north end, and that neither boys nor men were the aggressors.

That observing a night shirt through the window walking around in the early morn was mistaken identity. She fled, it was another fellow.

That in prospecting around for marriageable material in Pioche she found Nune.

That there is nothing like liberality in social affairs and that some of our young ladies even want to Win Free.

That when she learned his name was Marriage—she said yes.

That the fighting editor of this rag is not much of a scraper, jump it up and see, you will have to go some.

Mr. Geo. Bethune, a prominent mining engineer, recently located here, returned Wednesday from an extended inspection tour through the northern part of the county, but has nothing definite to give out for publication at present. "I saw some good country," Mr. Bethune said, "and am fully convinced that from Pioche to Ely will be the liveliest country in Nevada before very long."

NOTICE.

The residents of Pioche, Merchants and others are hereby notified to clean up all rubbish bark and refuse that is laying loose upon their premises and back-yards and are also warned not to throw any refuse or rubbish of any kind on the public streets. Any premises that are not cleaned up by the 1st of September mill then be cleaned and the cost thereof be collected from the owner.

By order of
JAKE JOHNSON,
Sheriff.

Several here anticipate going to the St George Fair on the first. Geo. O. Sawyer is building an addition to his residence.

A report has just reached here that Fred Mills while descending a ladder at the Last Chance mine at Highland fell to the bottom about 40 feet, running a sharp pick through his arm. Dr. Van Emon happened to be on the ground and dressed his wounds thus alleviating the necessity of bringing him to town, and he is reported doing well. One of the wrungs on the ladder gave way and Mr. Mills was unable to recover himself. Mr. Gorcon who is interested in the property will leave to-morrow to ascertain particulars.

Hon. J. A. Denton of Caliente, has been appointed a delegate by the State Democratic Chairman to meet Wm. J. Bryan in New York the first of next month on his return from a tour around the world. The effect is to create enthusiasm and build a presidential boom for Bryan, and Mr. Denton has been well chosen.

Peter Johnson and W. G. Clark, two prospectors who started out of Goldfield some time ago to prospect Death valley, are believed to have perished on the desert during the recent hot spell.

Notice to Creditors

In the Fourth Judicial District Court of the State of Nevada in and for the County of Lincoln.

In the Matter of the Estate of Benjamin Sanders, Deceased.
Notice is hereby given that the undersigned was duly appointed administrator of the said estate of Benjamin Sanders, deceased, on the eighth day of May, A. D. 1906, by the Fourth Judicial District Court of the State of Nevada, in and for the County of Lincoln, and duly qualified before said Court as such administrator on the said eighth day of May, A. D. 1906.

All persons having claims against said estate are required to file the same with proper vouchers and statutory affidavits attached, with the Clerk of said Court within three months from the first publication of this notice.

Date of this notice, June 11, 1906.
JAMES LEMOINE,
Administrator.
